Topic for this meeting:  
Crime Prevention Through Environmental Design

- *Crime is lower where people feel they belong – they develop a sense of respect for a place*
- *Mixed-income & mixed-use buildings prevent segregation that can otherwise lead to crime*
- *Routes should be clear, or pedestrians pay too much attention to finding their way and reduce their awareness of danger*

These and other CPTED practices will be discussed...please attend to help brainstorm what could physically be done to revitalize the Hillside.
